Sri Kandasamy Vidhyalaya  
Higher Secondary  
School, Madurai.

PERCENTAGE-73.8%

(2016-2018)

## CERTIFICATION

Full-Stack Development

## LANGUAGES

- English
- Tamil
- Telugu

## PROJECTS

### Task Board Functionality

(HTML, CSS, JAVASCRIPT)

Developed a task management application that enables users to efficiently manage their tasks through a user-friendly interface. The application allows users to:

- CREATE, EDIT, and DELETE tasks to stay organized.
- CATEGORIZE TASKS into different statuses, such as "To Do," "In Progress," and "Done."
- "Implemented DRAG-AND-DROP FUNCTIONALITY for seamless task reordering across categories using JavaScript."
- Utilized LOCAL STORAGE to persist task data across sessions, ensuring users can pick up where they left off without data loss.
- Enhanced user experience through intuitive UI design with a focus on accessibility and ease of use.

### Registration Form

(HTML, CSS, JAVASCRIPT)

Developed a responsive registration form for course enrollment, designed to provide a smooth user experience across various devices. Key features include :

- FORM VALIDATION to ensure users enter accurate and complete information before submission.
- INTERACTIVE ELEMENTS such as real-time input feedback to guide users through the form.
- RESPONSIVE DESIGN to ensure seamless accessibility and usability across different screen sizes, optimizing the course enrollment process.
